

12-240-B
HTM Tachometer

12-240-A2
Tachometer Wheel

Part No.	Description
12-240-B	HTM Tachometer
12-241-A	Replacement 3" Wheel
12-241-B	Replacement 6" Wheel
12-240-A2	Deumo Tachometer Wheel 12"
30-10040679	Replacement O-Ring

PRODUCT DESCRIPTION

Wurtec's HTM Tachometers and Tachometer Wheels provide accurate speed measurement for a wide range of elevator applications. Designed for reliability and ease of use, these tools are ideal for measuring governor ropes, hoist ropes, and motor speeds during installation, inspection, and maintenance.

The HTM Tachometer (#12-240-B) features three measurement scales and a convenient lock-in function that holds measured values for easy viewing. Deumo and HTM Tachometer Wheels are available in both current and old-style configurations, each designed for smooth operation and quick attachment in the field.

KEY FEATURES

- HTM Tachometer (#12-240-B) features three measurement scales with a lock-in value hold function
- Ideal for measuring governor ropes, hoist ropes, and motor speeds
- 3/8 in. wide wheel with a 12 in. circumference for direct FPM readings from the RPM scale
- Current models feature an O-ring contact surface; Old Style models feature a non-slip urethane contact surface
- Easy-lock collar for quick installation and secure operation
