

Universal Capstan Rope Lock

Description:

The Universal Rope Lock provides a safe and secure means to hoist with your Capstan Hoist. The Universal Rope Lock has a robust design and is zinc-plated to resist corrosion. The Universal Rope Lock has full adjustability that allows the Capstan Hoist to be mounted in either direction and still allow the lock to be in the proper position for safe operation. The Universal Rope Lock can be used with either Synthetic or Manila rope in sizes of 1/2" to 3/4" in diameter. With safety being the most important factor in everyone's mind, eliminate your worries and use the "Universal Rope Lock" from Wurtec.

Part No.	Description	Weight (lbs.)
15-308	Rope Lock	8 lbs. (3.6 kg)
