

11-185-66
Scaffold Building Blocks

PRODUCT DESCRIPTION

Wurtec's Scaffold Building Blocks provide a secure, reliable support point for scaffold planks during elevator installation and maintenance. Designed to lock directly onto the rail, each block creates a stable platform for scaffold construction while meeting applicable OSHA load rating requirements.

KEY FEATURES

- Locks securely onto elevator rails to support scaffold planks
- Provides a stable angle for scaffold plank placement
- 1/2 in. through-hole at each end for securing end planks
- Rated in accordance with OSHA 1926 Subpart L, Appendix A

Rated Loads			
Duty	Max Intended Nominal Load (lbs/ft ²)		Max Span (ft)
Light	25		10
Med	50		8
Heavy	75		6
