

MATERIAL HOOKS

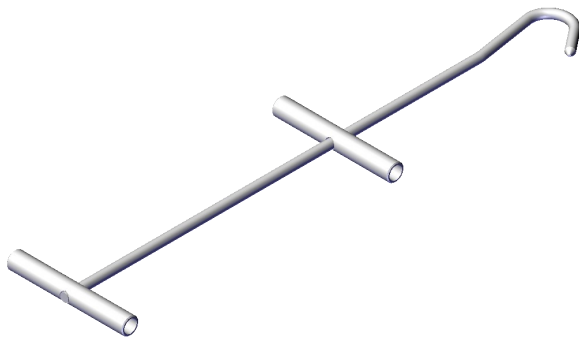

Part No. 11-403

Part No. 11-404

Part No. 11-405

Part No. 11-409

DESCRIPTION

Use this material hook as a handle for your guide rails for less strain and less pain. Hooks are parallel to the handle unless otherwise noted and come in different lengths: 12", 24", and 36".

Heavy-Duty Material Hook (#11-409)

With two handles, this product provides ergonomic positioning for reduced strain while lifting and maneuvering heavy rails. The high-strength steel is ideal for heavy rails, including 1-1/4" Jumbo Rails.
