

10-350
Corridor Layout Stand, Pair

PRODUCT DESCRIPTION

Corridor layout stands are a simple and effective alignment tool. A piano wire (not included) strung between the two stands creates a reference datum line that technicians can use to align various components within a bank of elevators.

KEY FEATURES

- Each stand weighs 34.5 lbs.
- Convenient carrying handle.
- Dimensions: 24" x 15-1/2" x 10"
