

HUSKIE TOOLS FACTS

6-TON COMPACT HANDHELD S-240A HYDRAULIC CUTTER

Huskie Tools S-series handheld hydraulic tools are extremely versatile with the capability to cut utility conductor cables, wire rope, rebar, anchor rod, and soft steel bolts. The S-series cutters are compact, lightweight, and portable for use in the tightest spaces. Proven and tested to last under the toughest conditions.

These cutters are made of high-grade steel and fitted with posi-grip rubber handles and coated with black zinc oxide to help reduce corrosion. Our flip-top latch feature is designed to open easily with gloved hand while quickly accepting cables and wires.

ROTATING HEAD:

The head can be rotated up to 180° to facilitate easy wire positioning and operator leverage.

Protected by Huskie Tools Limited Warranty
