

MHP55

4500 Material Handling -
Omni Block Pulley

Part No	Rope Size	Weight	WLL
MHP55	0.5" (13 mm)	1.9 lbs (850 g)	4500 lbf
MHP58	3/8" - 3/4" (9.5 mm - 19 mm)	5.8 lbs (2.65 g)	6000 lbf

PRODUCT DESCRIPTION

The Wirtec Material Handling Omni Block is a lightweight, high-strength rigging block designed for material handling, hoisting, and industrial rigging applications. Compatible with capstan winch systems and general-purpose rigging, it provides smooth rope management while delivering dependable performance in demanding work environments.

Designed for efficiency in the field, the Omni Block features a push-button side plate that opens for quick rope installation, reducing setup time and simplifying rigging. Its large sheave promotes smooth rope travel, while the integrated Prusik-minding side plate supports a variety of hauling and progress-capture systems. Available in two sizes to accommodate a range of rope diameters and working load requirements, the Omni Block is ASME B30 compliant for added confidence on the job.

KEY FEATURES

- Lightweight, high-strength design.
- Compatible with capstan winch and rigging systems.
- Large sheave promotes smooth rope travel.
- Push-button side plate allows quick rope installation.
- Integrated Prusik-minding side plate.
- Available in two sizes for various rope diameters.
- ASME B30 compliant.
- Designed for industrial material handling applications.
