PRODUCT DESCRIPTION

The Wurtec Thern Liberty Capstan Hoist FlexPack is a complete, customizable package designed for elevator jobsite hoisting applications. Customers can select the tools and accessories that fit their lifting requirements, and Wurtec packages the equipment into a ready-to-ship system for convenient storage, transport, and field use.

At the center of the FlexPack is the Thern Liberty Capstan Hoist, a portable 1,000 lb.-capacity hoist designed for durable, smooth, and quiet operation. The standard package also includes a pair of aluminum blocks and a Knaack® Jobmaster storage chest, providing an organized and practical hoisting solution for elevator installation and service work.
