

WorkGard Barrier

Part No. 100913Y

Part No. 100913Y in context

Attachment Kit (with Part No. 100887E and 100965E)

DESCRIPTION

The Wurtec WorkGard Barrier system protects pedestrian traffic from the hazards of maintenance repairs and construction activities by keeping them at a safe distance. Using our WorkGard Barrier minimizes the opportunity for accidental injuries and the associated liability.

Wurtec also offers an Attachment Kit that prevents the barrier from being toppled due to wind and offers additional protection against persons inadvertently or purposefully moving the barrier resulting in unauthorized and dangerous access.

Key Features

- Modular design for the addition or deletion of panels to accommodate any application.
- Adjustable hinge placement allows for a "step up" or "step down" configuration, such as at a curb.
- Standard caution signs included. Other sign legends available upon request.
- High impact co-polymer polypropylene that is portable, lightweight, durable, and non-conductive.
- Attachment Kit that prevents the barrier from being toppled or moved.

Part No.	Description	Size
100913Y	Standard Barrier - 4 panels	30" wide x 34.5" high x 1.25" deep
100887	Barrier with Vertical Extension - 4 panels	30" wide x 42" high x 1.25" deep
100887E	Barrier with Vertical Extension - 4 panels with Attachment Kit	30" wide x 42" high x 1.25" deep
100965	Barrier with Vertical Extension - 6 panels	30" wide x 42" high x 1.25" deep
100965E	Barrier with Vertical Extension - 6 panels with Attachment Kit	30" wide x 42" high x 1.25" deep
