

The Reel Thing

Description

The Reel Thing is an innovative, versatile and safe reel handling tool. The perfect tool for moving large reels of wire rope and traveling cable. It's easy to use and affordable, saving you time and money.

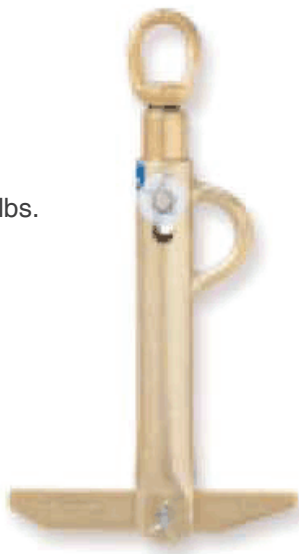

Key Features

- The Reel Thing is the tool that lets one person lift, stack and spin heavy spools for payout operations
- Load rating stamped right on the tool
- Safer to operate, independent laboratory tested with ASME
- Light enough to carry in one hand, but strong enough to lift over 2 tons
- Invaluable tool for warehouse and out in the field

Part No.	Capacity (lbs)	Arbor Size (in)	Weight
Rt-20	3000 (1361 kg)	2-4"	7 lbs. (3.175 kg)
Rt-40	4500 (2041 kg)	3-6"	15 lbs. (6.8 kg)

Part RT-20
Wt, Capacity 3,000 lbs.
Arbor Size 2-4"

Part RT-40
Wt, Capacity 4,500 lbs.
Arbor Size 3-6"

1. Insert the Reel Thing® into reel in rolling position. Slowly Lift from flipping eye. Available on RT-20 & RT-40.	2. Drop The Reel Thing® into the arbor hole.	3. Apply lift to the top ring. Toggle engages under the top flange.	4. Now you're ready to lift, stack or unwind.
