

Reeving Splice

Description

Reeving Splices save up to 30 minutes per application by simplifying the marrying of wire ropes during elevator re-ropeing operations. The economical disposable tools permit easy passage of married ropes over or under sheaves.

SPLICE LENGTH: 22, 29, 32, 36, 40, 42, 46, 50

Part No.	Description	Diameter Size
16-209	Combines wire ropes during re-ropeing operations.	3/8" yellow
16-210	Combines wire ropes during re-ropeing operations.	1/2" (12mm) orange
16-211	Combines wire ropes during re-ropeing operations.	9/16" gold
16-212	Combines wire ropes during re-ropeing operations.	5/8" black
16-213	Combines wire ropes during re-ropeing operations.	11/16" red
16-214	Combines wire ropes during re-ropeing operations.	3/4" (19mm) green
16-215	Combines wire ropes during re-ropeing operations.	13/16" (yellow)
16-216	Combines wire ropes during re-ropeing operations.	7/8" (22mm) blue
16-217	Combines wire ropes during re-ropeing operations.	5/16" (8mm)
