

STRONG MAN™ SAFETY BARRIERS

Part No. SBN-22

Strong Man™ Safety Netting, Standard Grade, Fluorescent Orange

Strong-Man™ Safety Netting

This safety netting from Strong Man™ promotes worker and pedestrian safety on the jobsite.

Key Features

- Fire-retardant: meets NFPA 701 Method II and the Boston Fire Marshal Test BFD IX-1
- Knitted high density polyethylene (HDPE) with 1/4" mesh openings
- Lightweight, UV-treated, and long-lasting
- Edges are hemmed and reinforced for easy installation
- Meets NYC Local Law 61 and OSHA requirements when installed properly
- Economical and cost-effective

Product Uses

- Construction & jobsite protection
- Contains debris, dust, and other jobsite materials
- Worker and pedestrian safety
- Scaffold netting and enclosure
- Industrial, plant, and refinery maintenance
- Short-term guardrail and floor-to-floor netting
