

CABLE CONTROLLING BRACKET

Part No. 16-290

DESCRIPTION

Wurtec's Cable Controlling Bracket is a simple and economical device designed to facilitate the simultaneous reeving of up to (6) ropes. It is equipped with (6) cable clamps to securely grip the ends of the wire rope, and (6) mounting holes to adapt to a variety of uses and conditions. It will keep ropes orderly and prevent rotation as they are being installed.

This device is not intended to clamp rope anywhere that it is intended to be "live". It is only for use on the ends of ropes that will be later cut off, or beyond the wedge clamp as part of the tail.

Part No.	Description	Weight (lb/kg)
16-290	Holds 1/2": 65 ft-lb	11.5 / 5.22
16-291	Holds 5/8": 95 ft-lb	11.5 / 5.22
16-292	Holds 3/8": 45 ft-lb	6.5 / 2.94
