

10-121
Plumb Line Drop Tool

PRODUCT DESCRIPTION

Set your distance between guides (DBG), then attach this lightweight aluminum Plumb Line Drop Tool to the landing and extend your plumb lines into the hoistway. Allows adjustment to predetermined DBG locations. For DBGs from 72" to 100". Custom sizes available.

KEY FEATURES

- Mounts at top floor of hoistway and can be configured for side or center opening fronts. Additional cable supports are provided.
- Designed to support piano wire and allow for pre-setting of DBGs ranging from 72" (1829 mm) to 100" (2540 mm).
- Once gauge is rough-set it can be adjusted both left/right and front/back, allowing it to be precisely positioned.
