

PRODUCT DESCRIPTION

This rail lifter is specially designed to hoist T89 residential rails.

The tool consists of (1) lifting device that latches onto the fishplate at the bottom of the rail via a pin, and (1) rail halo that attaches to the top of the rail and provides stability.

The hoisting rope runs through the first grips on the rail halo and attaches to the shackle on the lifting device.

Kit includes:

- (1) T89 rail halo
- (1) T89 rail lifting device
