

10-150-2025, included in 10-150-KIT
Plumb Line Clamp for 5/8" and 3/4"

10-160-2025, included in 10-160-KIT
Plumb Line Clamp for 1-1/8" and 1-1/4"

PRODUCT DESCRIPTION

Wurtec's Plumb Line Clamp has been newly redesigned with versatility, strength, and precision in mind. Crafted from high-strength, lightweight aluminum, this tool securely attaches plumb lines to elevator rails, helping installers achieve accurate vertical alignment with ease.

Now sold as a complete kit, each package includes:

- **Plumb Line Clamp** – Durable aluminum clamp with six holes for hanging plumb lines and dual slot design
- **Plumb Line Gauge** – Provides a clear reference for accurate measurement
- **Intermediate Guide** – Provides additional stabilization for hanging plumb lines

Choose the model that best fits your rail size:

- **10-150-KIT** - Fits 5/8" and 3/4" rail face widths
- **10-160-KIT** - Fits 1-1/8" and 1-1/4" rail face widths

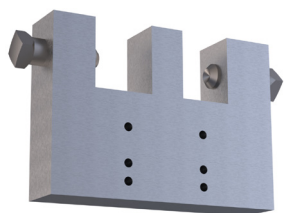

KEY FEATURES

- Complete kit includes clamp, gauge, and intermediate guide
- Dual slots cover a wide range of common rail sizes
- Six holes for flexible plumb line placement
- Lightweight aluminum construction
- Cup-point screws ensure a quick setup every time
- Stabilizes plumb lines for consistent accuracy in real world conditions
