NOTICE

GENERAL WARNINGS

The equipment covered in this manual should only be installed, used, and serviced by qualified personnel trained in proper work and safety procedures. This manual is intended to assist such trained individuals in the installation and use of this equipment and is not intended as a substitute for proper training and experience.

This document or any other information regarding this equipment is not intended to cover all of the possible situations which may be encountered while using the equipment described herein. Should specific situations arise which are not covered by the information provided, or should the user desire further details, the specifics should be directed to Wurtec, Inc.

EQUIPMENT DESCRIPTION & INTENDED USE

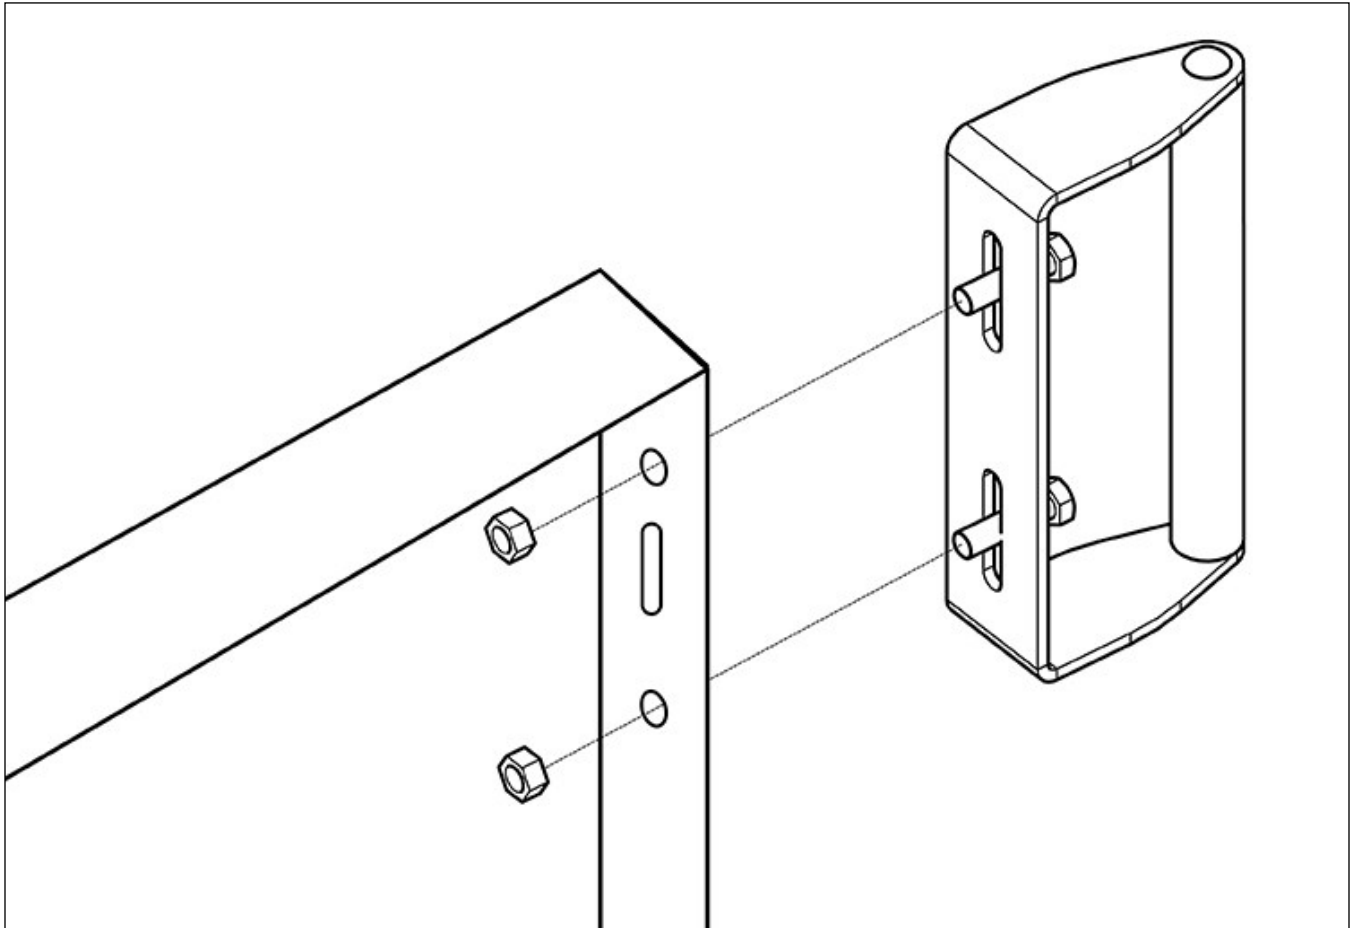

Wurtec's Door Lifting Handles provide a secure method for moving heavy elevator doors. Simply attach the door lifting handles to either side of the elevator door and team lift the door.

PERSONAL PROTECTION EQUIPMENT (PPE) REQUIRED

The following personal protective equipment (PPE) is recommended:

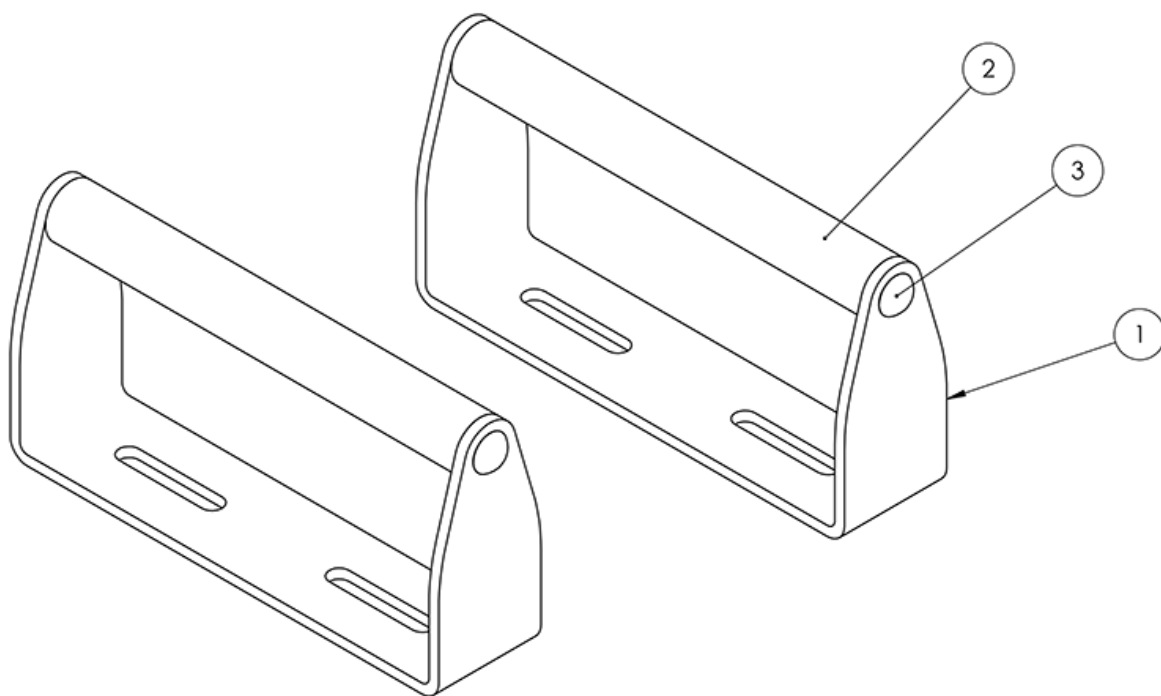

- Hard Hat
- Safety Glasses
- Gloves
- Safety Vest

INSTALLATION INSTRUCTIONS

Step 1: Attaching the Handles

- Place the door lifting handle onto the base of the elevator door and align the holes in the door with the holes in the handle.
- Use hardware to secure the handle onto the door.
- Repeat for the top of the door.
- Once the door is secured to both handles, it can be lifted.
