

10-190
Plumb Line Tensioner

PRODUCT DESCRIPTION

Wurtec's Plumb Line Tensioner provides a fast, efficient solution for tensioning and re-tensioning plumb lines during elevator rail alignment. Its lightweight, compact design installs easily over compatible Wurtec Plumb Line Clamps, allowing technicians to quickly achieve and maintain proper line tension. A durable plated finish provides long-lasting resistance to corrosion and harsh jobsite conditions.

KEY FEATURES

- Quickly tensions or re-tensions plumb lines in seconds
- Maintains line tension up to the line's breaking point
- Compatible with Wurtec Plumb Line Clamps: 10-150, 10-160, and 10-170
- Lightweight, compact design for easy handling and installation
- Durable plated finish resists corrosion and extends service life
