

T-RAIL HOIST RIG

Product Description

The T-rail hoist rig from Wurtec delivers fast, efficient T-rail hoisting. This device slides over the top of the rail, protecting it and stabilizing it, and also hoists from the bottom of the rail using the attachment bar at the end of the cable.

The 11-293 hoist rig will hoist rails sizes up to 18.5 lbs/ft without the fish plates being attached at the top of the rail. The 10-10001435 will hoist jumbo rails up to 30 lbs/ft without the fish plates being attached at the top of the rail.

11-293
5/8" & 3/4" rails

CAUTION

Swivel must be used to prevent spinning of rail.

Part No.	Rail Sizes	ISO Designations
11-293	5/8" & 3/4"	T89, T90, T114, T127, T140-1
10-10001435	1-1/8" & 1-1/4"	T140-2, T140-3
