

PRODUCT DESCRIPTION

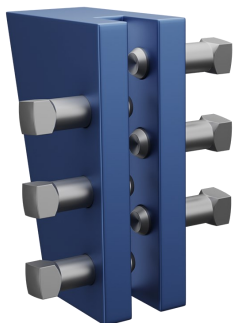

Wurtec's **Rail Blocks** provide a reliable way to rest your elevator car or counterweight frame at any point in the hoistway. Rail Blocks must be used in pairs and are sold separately. Each block is painted for rust protection. **Made in USA of U.S. and Imported Parts.**

Standard Rail Blocks

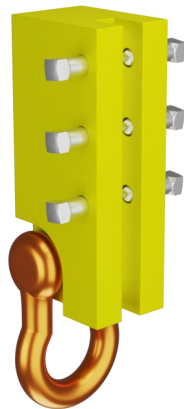

These blocks are designed to support a large load, e.g., an elevator car, from underneath. They should be oriented with the **larger face pointing upwards.**

Rail Blocks w/ Clevis

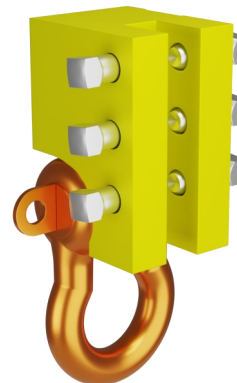

These blocks are intended to have all their load applied to the shackle. Loads are to be applied within 15 degrees of a true vertical load. These should be oriented so that the **shackle hangs downward in the hoistway.**

11-180
Standard
Rail Block,
5/8"

11-190-M
Rail Block
w/ Clevis,
5/8"

70-10001612
Heavy-Duty Rail
Block, 1-1/8" to
1-1/4"

All Wurtec Rail Blocks models are CE and UKCA certified.
