

V2 FOLD-OUT EXTENSION

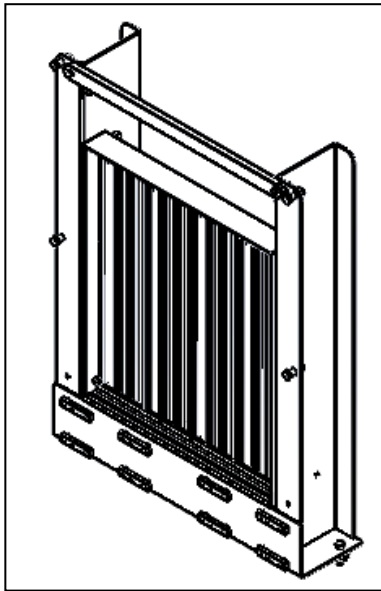

Product Description

The V2 False Car Fold-Out Extension provides support for one individual. The maximum capacity is 250 lbs. The platform is 24" wide by 24" long.

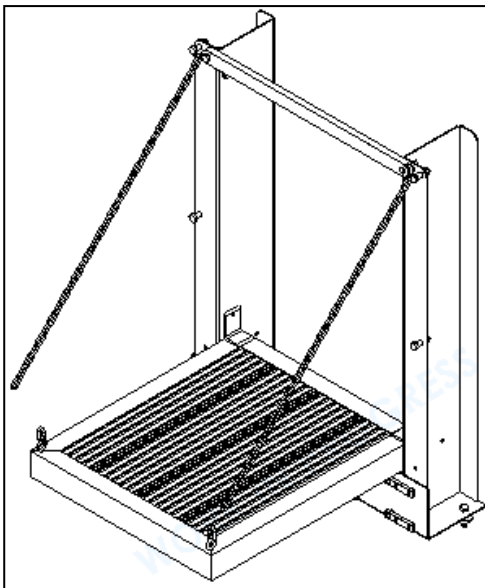

The V2 Fold-Out Extension can be installed at the lateral sides of the False Car and at the back. It should not be used at the hoistway entrance side. It is usable on the **V2**, **Mega V2**, **NAV2**, and **Australian V2** False Cars.

The fold-out platform requires special handrails (included), depending on the location where it is used.

When not in use, the platform should be folded back to its rest position.

Rest Position

In Service Position

Part No. 11-306-24-EXT

WARNING

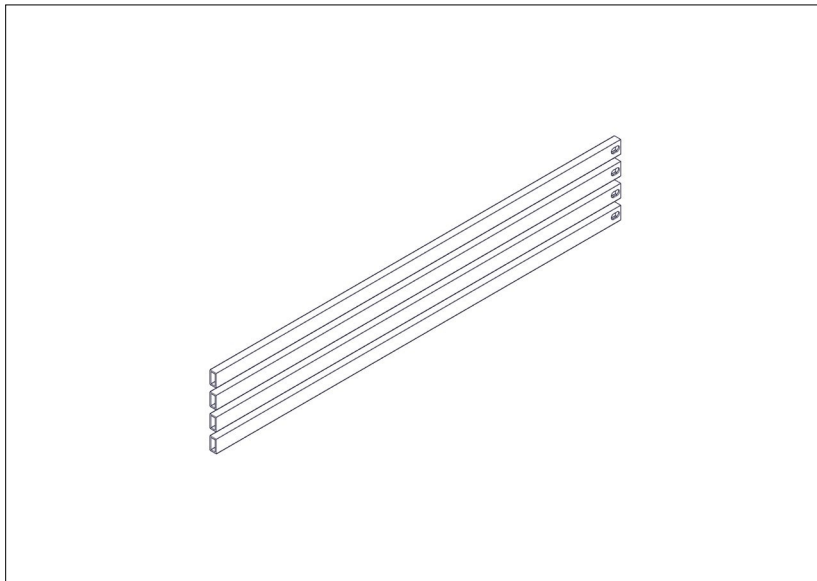

Fall protection must be used when the extension is in use.

PLATFORM EXT HANDRAIL ASM

■ Product Description

The Platform Ext Handrail Assembly provides support for one individual using the V2 False Car Fold-Out Extension.

The Platform Ext Handrail Assembly can be installed on the V2 False Car Fold-Out Extension wherever it is used. The handrails are 48" long and you will need to cut to length.
